DEMORALIZATION SET IN

THE INDUSTRIAL LIST IN WALL STREET WENT TO PIECES.

Railroads Held Remarkably Firm Several Making Substantial Gains -Strong Tone in Local Trade.

At New York yesterday money on call but closed rather easy at 368 per cent.; last loan, 3 per cent.; ruling

Prime mercantile paper, 51/266 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.86% 704.86% for demand and \$4.81\\@4.81\% for sixty days; posted rates, \$4.821/2 and \$4.871/2; commercial bills, \$4.80%.

Silver certificates were 5814@5914c; bar silver was 59c; Mexican dollars were 474c. Bar silver at London was dull at 27 3-16d

The tone of yesterday's market for industrial securities at New York showed a decided contrast to that for railroad securities. The break in prices of the industrials approached demoralization by the middle period of the afternoon. Meanwhile the railroad stocks, almost without exception, held tenaciously to their prices. Late i the day the bears began to cover, and wrought some very marked recoveries in the industrial list. At the same time the railroads, which had been almost stagnant. displayed some signs of animation and 10se generally above Tuesday's level. Net gains in a few railroads reached a point The late recovery in stocks was coincident with an easing in the call money rate to 3 per cent., after ruling at 7 to 8 per cent. earlier in the day. The banks were calling loans, and the movement of the industrials suggested that they were in disfavor, not only with the speculative public, but with the money lenders, industrial collateral apparently being displayed to a greater extent than other classes. The bears were very active and made a bold onslaught on the industrial list, uncovering stop-loss orders on a large scale. The easing of the money rate aroused the supposition that the most important that has yet been the banks had strengthened their position to a satisfactory extent, promising some relief from the calling of loans. As it was evident that the short interest had been largely extended, the room traders turned to the bull side on the general theory that the three days' decline in prices had reached far enough. They had some success in forcing the shorts to cover, and the demand from that source became rather urgent. Quite a number of the industrials showed declines of 31/2 to 7 points, and the subsequent rally brought them up from 11/2 to 5 points. Sugar was decidedly erratic, owing to the sitting of the directors to act on the dividend. After an early advance there was decided weakness, and only a momentary check to the fall when the regular dividends were announced. It fell off afterward to 149%, and after rallying 3 points eased off again, closing with a net gain of a small fraction. The increase in the dividend rate on Atchison preferred, though not entirely unexpected, had a strengthening influence on the railroad list. Some strength was imparted to the international stocks by the support accorded in the American department in the London market. Continued large shipments of currency to the South and a loss of over a million dollars by the banks to the sub-

tions are reported. Sterling exchange continued firm. There was little doing in railroad bonds and prices were held about steady. Total sales at par value were \$1,130,000. United States new fours and old fours advanced Following are the day's share sales and the closing bid prices:

Charges for Collecting Checks.

At New York yesterday the result of the deliberations of the executive committee of the conference of the clearing houses, which represent the more important banking interests of the country, was made known when it was defided that the appended by-law be adopted by all the members of the association:

"The Clearing House Association shall have power to establish rules and regulations regarding collections by members of the association or banks or trust companies or others clearing through such members, and the rates to be charged for the enfercement of the same. It may, from time to time, make any additions to or changes in such rules and regulations as it deems judicious. Any rule or regulation upon any subject must receive a majority of votes of all the members, and when once it is established it shall not be altered until it has been in force at least three months, and then only by a majority vote of the Clearing House Association.'

This action, foreshadowed several weeks ago, after a conference of the larger banking interests of the West, is regarded as taken in the matter of out-of-town collections on checks, and it is in accord with the action of the New York Clearing House Association, which put similar rules and regulations into operation recently.

LOCAL GRAIN AND PRODUCE. Trade Is Active, with Strong Prices in Nearly All Lines.

Seldom does trade in all lines move along as smoothly from week to week and so free from ered and the few increases are in articles not necessities, as a general rule. There have been several advances in certain lines of dry goods, but they are very slight. Sugar, coffee, fruits and vegetables are not as high as one year ago, and indications are that no sharp advances will be made the present winter, so abundant is the supply. Flour has never sold lower than at the present time, and the same is true of many articles which come into the greatest demand Dressed meats are the most expensive articles as a result of recent advances in prices. Provisions are low for all descriptions, as is poultry Eggs, temporarily, are higher than a few weeks ago, but not as high as one year ago. Summing all up the prices at the present time, volume of business considered, are very reasonable. The local grain market is quiet. Receipts of corn are moderate and of other cereals exceedingly light. ERROR IN THE VISIBLE

IT CAUSED A MARKED WEAKNESS IN THE CHICAGO GRAINS.

Wheat Lost a Half, and Oats, Corn and Provisions Followed the Leader to a Lower Level.

CHICAGO, Dec. 6.-Wheat was firm early to-day, but weakened on predicted increase in visible, closing 1/2c under yesterday. Corn declined with wheat and on freer country offerings, closing 1/6%c down. Oats closed 4c lower. Provisions weakened with corn and on profit taking, closing 21/2c lower all

The decrease in visible was still a bull comfort at the opening of the wheat market and further cheer came in reports of small receipts. May accordingly tacked 1/80 on to yesterday's closing price, opening at 69% @69%c. The continent inquired for the cereal and another brace was taken, May advancing to 70@70%c. That mark proved to be the climax of its glory. The market eased off a bit on profit-taking and later turned weak when Bradstreet's report put the predicted decrease in the visible among the errors of history, averring that instead there would be an increase of 1,390,000 bu. Recent purchasers let go in a hurry and May closed at the bottom, 1/2c under yesterday, at 691/8@691/4c. Primary receipts were 778,774 bu, compared with 1,480,000 a year The effect of this decrease was largely counteracted by the shipments from the same points, 227,900, against 1,093,200 last year. Local receipts were only twenty-nine cars, fifteen of contract grade. Minneapolis and Duluth reported 329 cars, against 540 last week and 1,200 the corresponding day of last year. Seabord clearances in wheat and flour were equal to 586,064 bu. New York reported ten loads taken for export. the wheat market and light receipts be-Boott C. 5c: Buck's Head, 6c: Clifton CCC, 514c; | ing the influences. The market weakened later, the acceptances of last night's bids being somewhat freer. This, taken with the weakness of wheat, was sufficient to cause some liquidation and the price lost more than double its early gain. Primary receipts were 487,600 bu, compared with 619,-700 bu the corresponding day last year. Local receipts were 166 cars. Clearances were liberal and a fair export business was reported at the seaboard. May opened a

> Oats were steady at the opening, but eased off with wheat. There was little life to the trade. The shipping demand was poor, clearances were light and local receipts only 118 cars. An increase of 1.010,-000 bu in the visible was reported. May opened 1/6@1/4c better at 241/4c, but sold down to 23%c, at which the market closed 1/20%c

under yesterday. Provisions early were strong, but the weakness of grain and the active profittaking turned the tide and the close was easy at prices under yesterday's close. The initial strength was due principally to hog receipts, considerably under last year's, but this advantage was offset later by a less pressing demand from outside and the anxiety to realize on the late advance. Packers sold products, traders buying on the decline. May pork sold from \$9.821/2 to \$9.95, closing 21/2c under yesterday at \$9.821/2. May lard from \$5.411/2 to \$5.521/205.55 and finished 21/2c under at \$5.471/2; May ribs from \$5.271/2 to \$5.35, closing 21/2c down at \$5.271/2. Estimated receipts to-morrow: Wheat,

UNION STOCKYARDS, INDIANAPOLIS. Dec. 6 .- A total of about 375 head of horses were offered in the auction this week. against 200 last week and about 230 the same week a year ago. The arrivals included an unusually large number of highclass animals and the quality generally was much better than usual at this time in the year, and really better than the trade requires. There was a very fair attendance of buyers, but as usual just be- Closed 5c to 10c lower. Late sales Yorkers, \$4.30 fore the holidays there was no urgent demand for any king. . ne bidding from the higher. Mixed sheep, tops, \$4@4.25; culls start indicated that buyers were determined to get meir supplies at what would be considered low prices, and later developments showed that they were in earnest. The fact that a good many bids were lower than country cost caused owners to be very slow in transferring their holdings, \$2.75@4.40; canners, \$1.50@3; bulls, 2.75@4. Texas and quite a number of animals were passed unsold. The demand was better for horses suitable for the export trade than four hours ending at 5 p. m. Dec. 6, 1899, as any other class, but all kinds were lower than two weeks ago. As noted some time ago, it is not expected that there will be much trade until after the first of the year, and therefore small supplies will be solicited.
